# Part 1: About this Business services Resource

### Guidance

١

l

This Practice Aptitude Quiz is intended to be a general illustration of some of the key learning standards required of people attempting an Australian Apprenticeships entry level qualification in the Business Services industry.

# This Practice Aptitude Quiz is neither a formal assessment tool nor a direct pre-requisite for any job application.

This quiz has been developed with the assistance of Industry and Registered Training Organisations based on the needs and requirements of the industry sector.

It focuses on literacy, numeracy, comprehension and problem solving questions contextualised to this specific industry.

This Practice Aptitude Quiz does not cover aspects such as general knowledge or complex problem solving or reasoning skills. The level of reading, writing and mathematical skills assessed by this quiz is equivalent to that of a young person at Year 11 level.

This resource can be used by a number of different organisations and people such as careers practitioners with young people, Group Training Organisations and Job Services Australia providers with job seekers.

The Practice Aptitude Quiz can be:

- Used by careers practitioners with individuals or in a class setting to provide general guidance on the level of study involved in undertaking an entry level qualification in this industry;
- Provided to people to enable them to practice their skills before sitting an actual aptitude test;
- Used by teachers as a guide to industry math requirements at the entry point of this particular Australian Apprenticeship career path;
- Used by teachers as classroom based activities for students in Year 11 and 12 and VET Businesscentred studies.

The Quiz should be able to be completed in approximately 1 hour and 15 minutes.

# Please note that rates quoted in this assessment for various items, including pay rates, are not meant to reflect today's values, but are used purely for mathematical purposes.

Calculators may be used to complete this practice assessment.

Answers are located at the end of the quiz.

Melissa is a receptionist at Zig Zag Building. Her job description describes her role as:

- > Providing support to the manager;
- > Responding and redirecting telephone enquiries;
- > Updating database and producing a weekly report for the manager;
- Managing financial requirements including purchase orders, cheque requests and courier services; and
- > Performing other duties as requested.

About one month ago, Melissa's boss asked her to take over the responsibility for managing the stationery for the entire office. Melissa agreed but she now finds that the stationery task consumes a lot of time. There were many interruptions from people wanting to find paperclips, paper or staplers. She found she needed to be very organised to cope with the work load.

Melissa started to manage her time better by prioritising. She created a to-do list. She labelled each task with:

- > A = Urgent must be completed ASAP;
- > B = Important must be done some time during the day; and
- > C = Can wait must be completed some time this week.

She started by working through her list each day in order of importance. She refreshes her list twice a day. At the beginning of each day she transfers any unfinished tasks from the previous day to her fresh list. She makes sure her desk is not cluttered because a cluttered work area can have a damaging effect on her productivity and time management.

To cope with the constant interruptions, Melissa has adopted some strategies. She rearranged her office so she is not so easily distracted by people walking past her desk. She also organised the stationery cupboard better so that equipment and paper could be more easily found by the staff. She even removed the spare chair in her office because staff used to sit and chat and her time was not being used effectively.

- a. How often does Melissa need to produce a report for her manager?
- b. What are three financial requirements in her job role?

c. What are three labels she has created for her to-do list?

d. How many times a day does she refresh her to-do list?

l

8.

e. What three things did Melissa do to minimise interruptions to her day?
