

Lake Munmorah High School

BYOD Agreement

Please read, and if you agree, sign and return to Mr Kroehnert (TSO) in the LMHS Resource Centre.

1. The term 'device' in these procedures refers to any personal computing device with a screen size at or larger than 11 inches that can connect to the department's Wi-Fi network.
2. Students may bring their own devices to school and may access the Department's Wi-Fi network.
3. Use of devices at school is governed by school developed guidelines, processes and procedures.
4. The department will provide internet access through its wireless networks at no cost to students enrolled in NSW Public Schools at DoE sites.
5. Students are responsible for the care and maintenance of their devices including data protection and battery charging. Devices must have the capacity to contain enough charge to last an entire school day, and be fully charged when brought to school. No charging of devices will be permitted at school.
6. The Department and Lake Munmorah High School (LMHS) will not accept any liability for the theft, damage or loss of any student's device. Students who bring their own devices onto school sites do so at their own risk. It is highly recommended that students obtain adequate insurance for their devices.
7. LMHS will not provide hardware or technical support for devices.
8. Students and their parents/carers must complete a signed BYOD agreement prior to connecting to the Department's Wi-Fi network. When this is done, the device will be examined by Mr Kroehnert (TSO) for suitability and a signed sticker will be placed on the device to indicate its approved use in the BYOD program. Only devices with this sticker will be given permission to use the network.
9. Where the school has reasonable grounds to suspect that a device contains data or material which is unlawful or inappropriate for a school setting, the device and its contents are subject to inspection at any time by school staff, and students agree to co-operate with any inspection and provide any passwords necessary to undertake such inspections. Depending on the nature of the material involved, further action may be taken including referral to the police. School disciplinary action may also be appropriate.
10. Use of BYOD devices in lessons is determined by the classroom teacher. Students are required to follow all teacher instructions regarding the use of BYOD devices.

Mr Dane Kroehnert
